

# Special Meeting

*Tuesday Night Re: Regulator @ Sharon's Park*

**Who:** National Grid, Department of Conservation and Recreation, the Mayor's Office, the Public Improvement Commission, McCormack Civic Association and all who wish to attend

**When:** This Tuesday, August 18 at 6:00 pm

**Where:** Bricklayers Apprenticeship Hall, 64 Mt Vernon Street, Dorchester, across from Sharon's Park

**Why:** To discuss the concrete regulator placed in the ground on Sharon's Park by National Grid without the knowledge or approval of the community.

**Sharon's Park was dedicated in 2008 and is a result of many neighbors, young and old, coming together with the Urban Ecology Institute's CityRoots Program, the Bricklayer's Apprenticeship Program and businesses like ATS. All of these people joined forces as the Sharon's Park Greening Committee to work nights and weekends laying pavers, cleaning, digging, planting trees and bushes and lugging water.**
